### PROFESSIONAL SUMMARY

- As a JavaScript fan, I want to explore the dynamic aspects of the ever-changing JavaScript, expanding the organization's technical/business boundaries.
- Nearly 4 years of experience in web development.
- Acquired expertise in JavaScript, ReactJS, jQuery, JSON, NodeJS, ExpressJS, AJAX, HTML5, CSS3, Redux, AWS, Webpack, React-Responsive.
- I revamped the architecture of the existing React + jQuery application to complete React Components.
- Implementing i18n from scratch.
- Web Scraping and its challenges using Vanilla JS.
- Developed Rapid Prototypes/POCs to showcase to the clients.
- Sound knowledge of various Cross Browser and Platform issues and Website localization/Internationalization.
- Excellent analytical & problem-solving skills, with the ability to interact with individuals at all levels.
- Besides these, I manage different projects in my current firm with the teammates and help clients achieve their vision.

### WORK EXPERIENCE

#### Full-Stack Developer

iFlair Web Technologies | April 2017 – June 2017

- Worked on an Ionic framework v1 to develop a UI screen of the mobile application.

#### MEAN Stack Developer

2000K Solutions | July 2017- Present

- Completed the porting of jQuery project to ReactJS and Vanilla JS.
- Animation of React Components using React Motion.
- Implemented State management using Baobab library.
- Seamlessly integrated smooth transformation between different layouts of the widget.
- Web scraping different Booking Engines and stitching different events using Vanilla JS using event listeners, GA events, Mutation Observers, API Listeners, History manipulations, etc.,
- Upgrading the current project redesigning from scratch using ReactJS with Hooks,
- Suspense/Lazy, Webpack, Redux, Redux-saga, Web sockets, React Router.
- Currently working on Angular for a booking engine that holds dynamic pages and lots of configurable components for the customers giving them a seamless hotel booking experience.
- Along with all other development, I also manage different projects in my current firm with the teammates and help clients achieve their vision.
